## COLLEGE ASKS CHANGES IN ITS CHARTER

Gettysburg College has asked the county court to approve a change in Section 4 of the institution's charter.

The proposed amendment, according to papers filed in the prothonotary's office by Attorney Richard A. Brown, provides the trustees with the power to elect successor trustees or fill vacancies. It provides that the number of trustees on the board shall not exceed 38 of whom two-thirds must be members of the Lutheran Church in America, or "its successor Protestant denomination."

Of the 38, according to the proposed amended section of the charter, four will be elected by the Central Pennsylvania Synod of the Lutheran Church in America and two by the Maryland Synod. If the synods should fail at any time to name their members of the board, the trustees are authorized by the amendment to fill the vacancies until the synods "exercise their power" to name the six trustees.

### FLOHR'S TO INCORPORATE

The amendment also provides that the president of the Central Pennsylvania Synod, the president of the Maryland Synod and the president of Gettysburg College shall serve as trustees during their terms of office.

Flohr's Lutheran Church, McKnightstown, has filed articles of incorporation in the prothonotary's office asking that it be named a nonprofit corporation. Listed as incorporators are: Emanuel Gunnel, McKnightstown; R. Dale Bream, Cashtown; Miss Roberta Bittinger, Cashtown; J. Harold Miller, 214 W. Middle St.; and Norman Singley, 304 W. Middle St.

## LCW CIRCLES GIVE REPORTS ON THEIR WORK

Christian Action work done by the circles of the Women of St. James Lutheran Church was reported by Mrs. Richard C. Lighter, Christian action committee chairman, at a meeting of the executive board Thursday evening.

In May a group of St. James women went to New Windsor to work in the clothing center and took with them 379 pounds of soap, approximately 50 white shirts, leper bandages, a layette and clothing for Far East and South American children.

Mrs. Lighter also reported that red ribbon markers were placed in 534 church hymnals and were first used in the church May 12. Mr. and Mrs. Edward Stine donated the red ribbon used in this project. Mrs. Lighter read a letter from a Hong Kong mission workshop from which articles made there were ordered by St. James women, telling of conditions there, especially the shortage of water, and expressing how much an order from their workshop means in helping the needy residents there.

## 35 TENNESSEE 4-H MEMBERS TO BE GUESTS

Thirty-five members of 4-H Clubs in Rutherford County, Tenn., will reside with Adams County 4-H members from July 13 to 19 in a "Between the States Exchange Program," according to reports Thursday evening at the meeting of the Adams County 4-H Senate at the Littlestown Community Center.

Elby Boring of the 4-H advisory committee, outlined to the Senate members the various steps involved in setting up the program by which the Rutherford County 4-H members come here to reside with Adams County 4-H members and then next summer Adams County 4-H members will go to Rutherford County to visit with the 4-H members there.

Boring said the idea originated with the exchange of foreign students. A pilot county program worked well. The Senate members were told to report to their clubs that members wishing to serve as host families for the visitors from Tennessee are to send in host family applications to the county office.

### VEESPER SERVICE SUNDAY

Further plans were announced for the 4-H vesper service to be held Sunday evening at 7:30 o'clock at the Peace Light Memorial. The New Oxford Agriculture Club is in charge of the program. ## GIVE GROWERS AVERAGE COST ON FRUIT CROPS

During the three-year period, 1959-61, the average cost in Adams and Franklin Counties for producing a bushel of apples was slightly over \$1.10, the cost of producing a ton of cherries was \$122.65 and the cost of producing a bushel of peaches was \$1.62.

Wayne Kelly, farm management specialist of Pennsylvania State University Extension Service, presented the report on costs of production at Thursday evening's meeting of the Fruitgrowers Association of Adams County held at the Biglerville High School auditorium.

Kelly noted the figures were based on 13 to 18 orchards where full records were made available to him by the growers. He also noted that the cost per bushel or ton varied widely over the three years depending on yield per acre which was a factor determined largely by weather.

### CHERRY CROP POOR

He also said there were wide variations from orchard to orchard in all three years. Larger orchards showed lower depreciation amounts per bushel or ton because of more efficient use of machinery, he observed.

President Paul Pitzer presided at the meeting at which Carlton Taylor and John Pepper, extension specialists, reported on insect and disease problems. They said the county's orchards generally are "in fair to good shape," as far as control of insects and disease are concerned.

Reports showed the growers expect a fairly good crop of peaches and apples. Opinions on cherry production showed it is expected to be very low this year, although some said that it might approach the yield of last year's crop—which also was below normal.

## Two Million Visited Bier Of Pope; In Triple Coffin

By BENNET M. BOLTON  
VATICAN CITY (AP) — The Roman Catholic Church began nine days of official mourning today for Pope John XXIII, whose body now lies at rest beneath the floor of St. Peter's Basilica.

Requiem Mass is being said each day at the Vatican basilica's great bronze-canopied central altar, a few feet above the subterranean crypt where the humble pontiff was removed from the eyes of an admiring, mourning world.

For two days and a night an uninterrupted stream of two million persons moved through the basilica to look in silence upon the face of Pope John as he lay in state on a candle-framed catafalque.

### IN TRIPLE COFFIN

Thursday night the body was placed in a triple coffin and brought below into the basilica's grottoes to a place near the tomb of Pope Pius XI.

## WILL PREPARE MANUALS FOR FOSTER HOMES

The Adams County Child Welfare advisory committee Thursday evening voted to proceed with formulation of a manual for foster home parents.

Meeting at the Child Welfare services office in the Topper Building, the board heard a report by the Rev. W. W. Wood of the findings of a subcommittee asked to study the possibility of publication of such a manual.

The committee's report favored such a book and Rev. Wood read a number of suggestions from the committee of items to be included in the manual.

### DISCUSS ALLOWANCES

Belief of the committee is that such a manual would make it easier for foster parents to know what the services do for the child and what the foster parent is expected to do for the youngster.

The advisory committee discussed the custom of some county advisory groups of providing small weekly allowances for the children under their care. The money is raised by the members of the advisory boards from public subscription or through donations by advisory board members themselves. Adams County children under Child Welfare receive no allowances.

Dr. Lloyd C. Keefe, retiring chairman of the advisory committee, introduced Luther Ritter, Littlestown, the incoming chairman, who will begin his duties in September.

### 102 UNDER CARE

The report of Child Welfare Secretary Miss Dorothy Curtis showed 102 children on the rolls from 32 families. Seventy-two of the children receive direct supervision, 30 indirect. May started, she said, with 99 children on the rolls. Services for four was in (Continued On Page 2)

## ROY R. STARNER

(Continued From Page 1)

never had any interest in anything but railroading.

"I was born and raised beside the railroad tracks at Peach Glen and was fascinated by trains," he says, "and it seemed only natural that I would become a railroader in some capacity." He also was fascinated by telegraphy, especially when it was used in the operation of trains. His father had worked for a short time as a laborer for the Reading Co., and his oldest brother, Clayton, had worked for the company for seven years before becoming a farmer.

Starnes is proud and grateful for the education he received in a one-room school at Mountain View, Peach Glen, which was closed when the Upper Adams Jointure was formed. He remembers the encouragement he received from his teacher and recalls it as "a wonderful experience and a good education." He joined the Reading Co. when he was 19 years old.

Mr. and Mrs. Starnes are the parents of two sons and two daughters. Both sons are engineers, the older, Roy R. Jr., an electrical engineer graduate of Pennsylvania State University who is employed by Metropolitan Edison, York, and Keith, a graduate of Cornell University, who is a research engineer for Aero Space Corp., Los Angeles, Calif. Their daughters are Mrs. Owen Taylor, Biglerville, and Mrs. William Weiker, Mentor, O.

What does an exrailroader do when he retires?

"I'm mayor of Bendersville and active in the church and I plan to continue to work for the church and the community and enjoy life before I get too old," he says. He is a Sunday School teacher at the Bendersville Lutheran Church and is a member of the stewardship committee.

"I also want to help my friends and neighbors if they need me," he says.

The two had finished in a tie Wednesday with a 36-hole score of 146.

Former Walker Cup player and longtime golfing companion of ex-President Dwight Eisenhower, Westland was the oldest player ever to win the National Amateur championship when he beat Al Mengert in the finals at Seattle in 1952. He was 47.

Attorney Donald G. Oylor filed a new petition for incorporation of the Pennsylvania Arabian Horse Association. The original petition was refused by the court for not having a sufficiently detailed statement of purpose. The new petition lists such purposes as to promote interest in and encourage ownership of Arabian horses, disseminate information regarding Arabian horses, foster Arabian horse classes at horse shows and exhibitions and cultivate social activities between persons owning or interested in Arabian horses.

Former President Dwight D. Eisenhower says the free world was given a new lease on life by those who died in the invasion of Europe which he led 19 years ago Thursday.

Eisenhower spoke in New York at the dedication of a \$6-million Red Cross service center. Glance-

dash, softball throw, 600-yard run and walk, plus a grass drill.

To insure the initial success of this program a new position has been created on the tot lots, that of a roving athletic instructor, which will be handled by C. Merrill Eckhart.

In addition to the physical program special activities are also being formulated for the following: Arts and crafts, basketball, pee-wee baseball, tennis, swimming and music. Robert Zeigler will be in charge of the music program.

The Recreation Department requests that all boys and girls report to proper play areas. The tot lot program will be geared for those between the ages of six to nine years. The areas are not designed for, nor can the department accommodate, children under six years.

A request has been made by the department that all people using facilities treat them with respect in order that a better program may be operated.

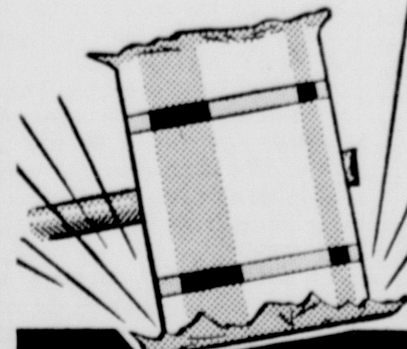

ing around the building, Eisenhower commented: "On D-Day I wasn't thinking of the Red Cross, but every other day I did."

GI loans administered by the Veterans Administration have financed one of every five homes build in the United States since the end of World War II.

## Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times

FIFTEEN YEARS AGO

Atty. Wolf Is Enroute To Eu-  
rope: Attorney Charles W. Wolf,  
East Lincoln avenue, left today for  
New York port of embarkation  
enroute to Germany, where he  
will resume his duties as legal  
advisor to the commanding  
general of the United States Air  
Forces in Europe.Wolf returned home on May  
6, after serving 40 months with  
the air forces overseas. He was  
given a thirty-day leave of ab-  
sence but was able to spend only  
20 days leave in the States be-  
cause of transportation difficul-  
ties in returning to the European  
Theater.REA To Extend Service Lines  
To Many Homes: The Adams  
Electric Cooperative, with head-  
quarters in Gettysburg, which re-  
ceived a loan of \$500,000 Thurs-  
day from the Rural Electrifica-  
tion Administration, Washington,  
D. C., began immediately on an  
expansion program which will  
provide electric service to dozens  
of new homes and farms in Ad-  
ams, York, Franklin and Cum-  
berland counties, the four coun-  
ties served by the local utility,  
a spokesman for the cooperative  
said today.The program also includes a  
new office building and storage  
space at Shippensburg, to cost  
approximately \$10,000. Work on  
this building was begun Thurs-  
day.Few new trunk lines will be  
strung, but electric service will  
be provided to many new homes  
which have been built recently  
along existing trunk lines, the  
company said. A large amount  
of new wire will be used to run  
electric service from the lines  
already strung along the high-  
ways to the houses and buildings.Little Taxicabs Install Radios:  
The first two-way radios to be  
used in Gettysburg taxicabs have  
been installed in the cabs of the  
Little taxi service, Glenn R. Lit-  
tle, owner, announced today. The  
equipment was manufactured and  
installed by the Galvin Manufac-  
turing corporation, makers of  
"Motorola" radios.The radios are installed in four  
of the Little cabs. Calls to head-  
quarters of the cab company can  
be immediately relayed to taxi-  
cabs and a faster service pro-  
vided in answering calls. Cabs  
can also call headquarters for  
instructions and directions.Ends Business After 52 Years:  
Clyde Mumper, South Stratton  
street, a photographer in Gettys-  
burg for the past 52 years, has  
closed his shop on Baltimore  
street and will retire from busi-  
ness.Mr. Mumper took his last pic-  
ture Saturday night, and with the  
completion of that work and other  
pending items will close his  
business entirely, he said today.  
Starting as photographer under  
J. I. Mumper over a half century  
ago when he was a youth of 17,  
the local photographer set up his  
own studio on Baltimore street  
in 1919.Then there were no such things  
as snapshots, he recalled, and  
cameras for the "layman" were  
a thing unknown. Prints were  
made by placing paper and nega-  
tives in forms and then exposing the  
whole thing to strong sunlight.  
The first "home-owned" cam-  
eras were secured by Gettysburg-  
ians many years ago and the first  
local establishment to sell film  
for snapshots was the John Hu-  
ber store where Shuman's store  
is now on Baltimore street, Mr.  
Mumper recalls.He said he could not estimate  
how many pictures he has taken  
or printed. Snapshots developed  
by him would probably run into  
many thousands, he estimates.

## Today's Talk

THAT SPIRIT SOMETHING

We like, or we don't like, a per-  
son almost upon a first meeting.  
Why is this? I believe it is be-  
cause we all radiate a personal  
spirit that attracts or does not.  
Some look upon this as personali-  
ty, but I like to think of it as a  
spirit that one throws out.There are certain people who  
draw you to them instantly upon  
meeting. You trust them. You  
love them. You wish to tie to  
them. I know many such. So does  
everyone.We all carry some sort of spirit  
about with us everywhere we go.  
It's a spirit of cheer, of confidence,  
of faith, of courage. People are  
uplifted by it. The salesman who  
has this spirit gets the business.  
He inspires confidence at once.  
He creates customers in the  
same way as one with this spirit  
creates friends.Our ideals, our daily thoughts,  
our attitude toward life, our heart,  
clothe this spirit, give substance  
to it, and make it a domi-  
nant force in our character.There is such a wealth of un-  
derstanding, too, to the one who  
carries about with him a vibrant,  
wholesome spirit. Such a person  
is like a sunny day. It does some-  
thing to everyone, and so does  
such a person with that spirit  
something.You feel like running quickly  
from a long, gloomy face, be-  
cause it leads nowhere. Even de-  
feat, sorrow, and dire disaster  
can't kill the spirit of one imbued  
with the essence of a victorious  
life.Some people call this spirit  
charm. The name doesn't mat-  
ter, however. It's having it that  
counts. Facing things with cour-  
age, complaining not at all be-  
cause of one's lot, and taking ad-  
vantage of every opportunity for  
improvement of mind, gives to  
us all the plain path to this spirit  
that is so essential to happiness.Here is an important thought  
— the more we give out of this  
spirit, the larger it grows and  
radiates!Tomorrow's subject: "Wealth  
Anywhere"

## Just Folks

AGE

They say that youth is much the  
fairest age  
And once I laughed and sang its  
songs of glee,  
But youth long since has turned  
its back on me  
To lead some other spirit on life's  
stage,  
Now I am come unto life's middle  
page  
And find much charm in all that  
I can see,  
I still hold hope for joys that are  
to be,  
Tomorrow's dreams my courage  
still engage.  
Life does not lose its charm.  
There always stays  
Some promise that we long to see  
fulfilled,  
Some joy to hope for in the  
distance days,  
Some little castle which we hope  
to build,  
That old gray-beard half dozing  
through the day  
Watches with joy his great-grand-  
children play.

today, as he nears 60, his face  
glows when he talks of helping  
his fellow man.He winces slightly when he re-  
calls how hard he hit some of  
his ring foes. "I regret it," he  
remarked. "Maybe I could have  
knocked some of them out with-

as his June 24 birthday ap-

## Beloved 'Pope Little John' Brought Church To Grips With 20th Century Reality

By BENNET M. BOLTON

VATICAN CITY (AP)—The man who succeeds Pope John XXIII will come to a papacy significantly changed during his reign.

To many people, Catholics and non-Catholics alike, the papacy may seem closer now.

The tradition that Popes seldom leave the Vatican has been broken. Hesitation to receive Protestant leaders has been overcome.

Pope John brought the church to grips with the 20th Century. On Nov. 4, 1958, the day he was crowned, no one dreamed of the changes that were ahead.

### "INTERIM POPE"

Then 76, the pontiff with the heavy features was appraised by many as an interim Pope. There were predictions that the papacy would remain fairly static until the emergence of a strong, vigorous, younger Pope.

Pope John at once shattered that concept, and he continued to sweep away the pieces as his reign progressed. He brought the Pope out of the Vatican and the Roman Catholic Church out of the counterreformation carrying both dynamically into a difficult, modern world.

### STRONG ECUMENICAL COUNCIL

The major works that marked Pope John as a great Pope were his Ecumenical Council and his major encyclicals "Mater et Magistra" and "Pacem in Terris."

The qualities that endeared him as a person were his sweeping mental grasp of humanity as a single entity and his utter unpretentiousness.

He once said that he hoped his "single and true title of honor" would always be: "He was a priest before God and before the people, a true and sincere friend of all the nations."

The humble farmer's son had a difficult time at first adjusting to the papal or imperial "We" when referring to himself in public address. He would explain to an aide that it was awkward to think of oneself in the plural, and he often reverted to "I."

"Don't interrupt me — I mean us," the Pope once joked.

### WASTED NO TIME

The new Pope of 1958 wasted no time. One of his first acts was to announce in January, 1959, that he would call an ecumenical—or general—council of all his bishops.

There had been only 20 before in history, the last in 1869-70. Pope John explained that his council would be a council of "aggiornamento"—bringing up to date—designed to help the cause of Christian unity and restore to his own church the pure lines of early centuries.

He labored hard the next four-and-a-half years to bring the project into reality. He set up an elaborate preparatory program to sound out the bishops' ideas and

### CONSISTORIES

He held consistories five times for the creation of new cardinals, raising the number from 52 to record highs of 74, 78, 85 and then 87. He brought in cardinals from distant lands where Catholicism is almost nonexistent and let every race be represented. He created the first Negro cardinal, the first Japanese.

He received 250,000 annually in huge weekly general audiences that ran twice the size of his predecessors' audiences. In private audiences he saw princes and kings, prime ministers and potentates, Protestants and atheists—including Soviet Premier Khrushchev's daughter Rada and son-in-law Alexei Adzhubel, editor of Izvestia. No other Pope had ever received such a personality from the Soviet Union.

### "BELOVED PASTOR"

The people of the Eternal City, which has seen virtually all the Popes of Catholicism pass down through 20 centuries, took Pope John to their hearts as their beloved pastor, one of their own.

## A Lovelier You

By MARY SUE MILLER

WANTED: MORE CURVE. A lovely writes, "My problem is a hollow thighline, the inner line. The effect is the same as that of bowed legs, only above

the knees. Can it be overcome?

A gap in the inner thigh area can be closed by building up the muscles. Performed daily over a period of several months, the following routines give excellent results:

1. Stand erect with feet together and hold onto a chair for balance. Slowly and with tension, raise right leg directly right, as high as possible; leading with toes, twist leg backward and hold position for five slow counts. Return to starting position, relax and give left leg same workout. Repeat 20 times.

2. Sit with back against a wall, legs stretched out straight. Turn feet away from each other, so that only heels touch. Press heels together and, for three counts, contract the inner thigh muscles—hard, harder, hardest. Then go limp. Ten repeats.

The test of resultful performance is a steady pull along the inside tendons of the legs. Try to increase it each day. The greater the pull, the quicker the build-up. To further speed the outcome, get in the habit of occasionally tensing the muscles when you sit and stand. The action goes unnoticed by an onlooker. Yet, when performed a dozen times daily, it makes a very effective aid to form exercise.

## Macmillan's Party Hit By Profumo's Misconduct

LONDON (AP) — The British Conservative party's chances for re-election reached a new low today as a result of a personal scandal involving a Cabinet minister.

John Profumo, Prime Minister Harold Macmillan's 48-year-old war minister, quit his cabinet post and his seat in Parliament Wednesday night after confessing he had lied in denying an "improper association" with a notorious model, Christine Keeler.

Profumo's disgrace was a political bombshell for Macmillan and his Conservative party who had believed the minister's denial in the House of Commons March 22 of persistent rumors that he had illicit relations with the 22-year-old model, a redheaded beauty who numbered two Jamaican Negroes among her lovers.

### WILL DEMAND PROBE

The opposition Labor party is expected to call for an official probe into the Profumo affair and to introduce a motion to censure the government in the House of Commons.

The Conservative majority in Dundee, Ill., enclosing 10 cents in coin and a long, self-addressed, stamped envelope.

Commons is certain to defeat a censure motion and keep Macmillan in office. But observers believe the scandal rules out a general election this year.

The scandal ended the political career of one of the most promising younger members of the Conservative party. Profumo had a beautiful wife, former actress Valerie Hobson; education at Harrow and Oxford; a distinguished army record in World War II, during which he rose to the rank of brigadier, the youngest member of Commons at the age of 25, and regular promotion in government posts.

### TWO BLITHE SPIRITS

NEW YORK (AP) — Two veteran British theater talents, Beal Lillie and Noel Coward, are being reunited on Broadway in next season's musical version of "Blithe Spirit." The score for the show—which in its original form was one of Coward's most successful comedies—is being done by Hugh Martin and Timothy Gray. Coward is to direct.

The federal government collected more than \$4.7 billion in automotive taxes the last fiscal year.

## BACKER OF TAX CUT HAS BILL TO RAISE 'EM

WASHINGTON (AP)—Against a sea of proposed and forthcoming tax increases, President Kennedy's proposed tax cut may appear to the taxpayer to be getting smaller and smaller and in danger of being swallowed up.

As a sign of how the tides are running, last week the congressman most responsible for the progress of the tax cut legislation introduced a tax-raising bill as well.

If the Social Security tax hike proposed by Chairman Wilbur D. Mills, D-Ark., of the House Ways and Means Committee becomes law, it would soak up some of the funds a general tax cut would leave in private hands. Also, there are built-in Social Security tax increases, one that became effective this year, others coming.

### OTHER LEVIES RISE

If health care for the aged under Social Security is ever enacted, it would mean another tax increase.

And state and local levies keep going up.

Taken all together, do these ins and outs of tax law add up to a net break for the taxpayer or not?

The answer appears to be that the average citizen will come out ahead, but not by anything like the full \$10-billion federal tax reduction the President advocates to stimulate the economy.

Here are some estimates:

The Jan. 1, 1963, Social Security tax increase, long provided for in existing law, is expected to take a bit more than \$2 billion in payments by employers and employees this year.

If the further increase proposed by Mills is enacted to ward off a feared deficiency in the disability benefit fund of Social Security, it will cost about \$500 million more in its first full year. It would apply payroll taxes to the first \$5,400, instead of \$4,800, of earnings.

Another automatic Social Security tax increase comes Jan. 1, 1966, and another one two years later. If the economy continues to grow, each of these will cost something more than \$2 billion since they will be levied on a bigger base.

But by the same token, reduced rates on income such as Kennedy proposes would amount to a bigger than \$10-billion tax cut in future years because they, too, would apply to a bigger base.

### Emmitsburg

## DELAY ACTION ON BOND ISSUE

The Emmitsburg town council met Monday night but decided to wait until after June 15 before taking any action on a proposed \$400,000 bond issue to pay all of the costs of purchasing and improving a formerly privately-owned water system for the town.

By that date, a report will be made by the town's consulting engineer Clair Maxwell on the exact location and plans for the water system improvements.

Mayor Ralph F. Irelan said that it is hoped that some of the costs estimated for the rights-of-way needed for such a water system improvement might be saved after this report since some of the rights-of-way owners may give these rights to the city without cost.

In this case, a smaller bond issue could take care of the costs of these improvements, Mayor Irelan pointed out. No amount was mentioned for the bond issue at the town council meeting in Emmitsburg Monday night.

The town council did pass several resolutions concerning the payment for the water system in the form of water rents.

They decided that landlords and not tenants would be responsible for the payment of these water rents and that water service would be shut off in a specified time after nonpayment.

## Kennedy Says U.S. Is In Supersonic Airliner Race

By ROGER LANE  
AP Business News Writer  
NEW YORK (AP)—The finish line is a long way ahead in the international race for a commercial air transport that will whiz across the Atlantic Ocean in two or three hours.

The United States or the Soviet Union may put a man on the moon before supersonic airliners start flying.

But at least the United States officially is in the running, put there—somewhat belatedly—by President Kennedy's declaration of American will to go ahead with supersonic air transport development.

PLACED ORDERS ABROAD  
The presidential announcement in Colorado came less than 24 hours after Pan American World Airways ordered six of the supersonic planes that France and Great Britain are preparing to produce jointly.

The order caused jubilation in Paris and London where officials viewed it as a strategic boost to their drive to challenge U.S. superiority in the commercial aircraft field.

In turn, word of the Kennedy decision was cheered by plane builders here, and by Trans World Airlines, Pan Am's chief U.S. competitor on overseas routes.

2,000 MPH AIM  
Although the President didn't say so specifically, the U.S. is expected to shoot for a plane that will fly 2,000 miles an hour or faster—Mach 3, or more than three times the speed of sound.

Costs have been estimated at upwards of \$1 billion and, Kennedy said, will require government subsidy.

The projected British-French "Concorde" aims at roughly 1,500 miles an hour. The two nations have pooled \$500 million for their effort.

Kennedy talked of getting the American mode into service by 1959 or before although some experts believe 1971 or 1972 is closer to probability. "Concorde" deliveries have been promised in 1968. This also has been questioned.

MANY PROBLEMS  
For one thing, the Mach 3 craft would have to be made of steel and titanium. Instead of the conventional aluminum deemed suitable for the slower Mach 2, because of frictional heat considerations.

Douglas Aircraft Co. engineers have estimated external temperatures of the aircraft skin will range up to 600 degrees Fahrenheit. The cabin and fuel tanks would have to be insulated.

Although there was speculation in Paris that the Pan Am order might stampede other airlines into buying the "Concorde" without waiting for an American model, it found no immediate confirmation here.

No price was mentioned in Pan Am's announcement, although industry estimates were in the range of \$8 to \$10 million per plane, compared with the \$6 million tag on today's jets.

## FOOD BARGAINS CONTINUE FOR BEEF, CHICKEN

By THE ASSOCIATED PRESS  
Beef and chicken bargains make it easy to celebrate June as national barbecue month.

Steaks, hamburger, small roasts, kabob cuts and ribs are all attractively priced candidates this weekend.

One national chain features rib steaks at 69 cents a pound and California roasts are offered by another chain at 49 cents.

Chicken fryers, meanwhile, were pegged at 29 cents a pound in the New York outlets of one chain. These prices are expected to continue low.

Red meat prices—recently at their lowest levels in five years—may start rising before too long, however. This turnabout has shown up in West Coast markets in the form of pork boosts of 3 to 5 cents a pound for loins and 2 to 3 cents for spareribs.

STILL PORK BARGAINS  
Retail effects haven't shown up everywhere yet, however, and many pork bargains will still be found this weekend.

Beef prices may undergo sort of a sympathetic vibration later, rising once the competitive pressure of cheap pork is eased.

Vegetable offerings this week-end include new potatoes, bell peppers, spinach, squash, tomatoes, cabbage, celery, sweet corn and carrots.

Fruit counters are brightening with the appearance of blueberries, avocados and cantaloupes to join the starts of recent weeks: watermelon, strawberries and pineapple. Peaches are also showing up in volume and West Coast markets feature plums, apricots, grapes and cherries.

Sugar prices have generally leveled off or declined as wholesale prices edge downward.

## MONEY BILLS ARE READY AT HARRISBURG

HARRISBURG (AP)—Appropriation bills to implement Gov. Scranton's request for \$1.1 billion in spending for the 1963-64 budget were ready today for introduction in the House.

House Majority Leader Albert W. Johnson said the bills were drafted in line with the governor's original requests and would not show any changes suggested by the House Appropriations Committee.

The House and Senate Appropriations Committees spent several days of public hearings examining the budget outlined by the governor in early April.

\$30 MILLION FOR SCHOOLS  
The budget included \$1,052 billion to maintain present programs and \$47 million in new spending, including \$30 million for public schools.

The House met alone today; the Senate recessed Wednesday until Monday.

The chambers completed legislative action on the \$12.5 million increase in liquor taxes. The House also overwhelmingly approved the administration's strip mining control bills.

On a straight party line vote, 27-23, the Senate approved the bill raising the present 10 per cent levy on liquor and wines to 15 per cent.

A few hours later the House took final legislative action, 112-83 on the measure, sending it to the governor. The governor's office indicated the chief executive would sign it as soon as it had cleared the routine Justice Department legal check.

The liquor levy was the last of the revenue bills to get legislative approval. Last month the lawmakers passed legislation raising the state's sales tax from 4 to 5 per cent and the cigarette levy from 6 cents a pack to 8.

All of the revenue measures were designed to produce some \$139 million needed to balance the governor's proposed budget.

The final Senate vote came after defeat on a straight 27-23 party line vote of two sets of Democratic amendments. One amendment would have allocated \$2 million of the liquor tax for treatment of alcoholics. The other would have exempted sacramental wines from liquor taxes.

The most adamant opponent on the Republican side was Sen. Albert R. Pechan, Armstrong, who changed his mind, giving the Republican majority solid support for the measure. Sen. Thomas A. Ehrsgood, R-Lebanon, the only other GOP opponent, earlier had announced his decision to support the levy.

Ehrsgood said although the increase "would impose the highest (liquor) tax of any state in the union, I could not in good conscience expect the House to come through with another tax measure."

## Group To Study Mine Safety Laws

HARRISBURG (AP)—A three-member commission of mining experts was appointed by Gov. Scranton Wednesday to evaluate the safety features of Pennsylvania's coal mining laws.

Scranton, in announcing the committee formation, said the action was an aftermath of the December explosion at Carmichael in which 37 miners were killed.

Dr. David R. Mitchell of the College of Mineral Industries at Pennsylvania State University was named chairman of the new group. Other members are F. Edgar Kidlich of Kingston and Edward H. Greenwald of Pittsburgh.

NAIROBI, Kenya (AP)—Kenya, headed for independence from Britain, plans to join neighboring Uganda and Tanganyika in an East African political federation before the end of the year.

MANILA (AP)—Leaders of Malaya and Indonesia arrived Thursday to join Philippine Vice President Emmanuel Pelaez in talks on the proposed Federation of Malaysia.

## SPECIAL VOTE IS EXPECTED

HARRISBURG (AP)—Political sources predicted today the special election to fill the congressional seat of the late Rep. Francis E. Walter will be held prior to the regular November balloting.

They said Gov. Scranton would fix the date independently of the November election in order to enhance the possibilities of a Republican victory.

Their reasoning, they said, is that there would be more straight-ticket voting in the fall when the county offices are at stake. An independent election would reduce partisan influences.

Walter, a powerful Democrat, died last week in Washington.

Scranton must set the date Monday for the special election. The election cannot be held within 30 days of the date the governor issues the call for the special election.

Republicans have announced a nominating convention will be held June 8 in Bethlehem.

## Priest Learns Useful Skills At Davis Inlet

By GEORGE FRAJKOR

DAVIS INLET, Labrador (AP)—A priest called on a dentist in Goose Bay last year and asked to have some fillings checked. "Remarkably good," said the dentist. "Who filled your teeth?" "I did myself," the priest replied. The Rev. Francis C. Peters is no trained dentist, but he has learned elementary dentistry the hard way, just as he has learned elementary medicine, boxing, carpentry, mechanics, meteorology, engineering, plumbing and barbering.

**INDIAN MISSIONARY**

The challenging life at Davis Inlet, where he has been the Roman Catholic missionary to a band of Nascope Indians for seven years, has taught him to be tough.

He found out soon after his arrival at this isolated post 180 miles north of Goose Bay that the band's strong men were its leaders. Often they were bullies, but in the band only strength was respected.

Father Peters is lean and rangy, weighing only 160 pounds despite his six feet, but there isn't a man in the band who can beat him. He has brought Christianity, and enforced justice via the fist.

On one expedition in the inter-

ests of seeing justice done, he flattened a parishioner with two solid punches but broke a finger. He went home, set the finger and splinted it, took a few aspirins to ease the pain, and got back to work building his church-school-presbytery-parish hall and installing a furnace he made from two oil drums.

When he was interviewed a while back, Father Peters was tenderly nursing a frozen jaw. He had just returned from a 40-mile supply trek by motorized toboggan, pushing directly into a 30-mile-an-hour wind with the temperature 40 below.

Father Peters was 30 and a top philosophy student when his order plucked him from his native

Holland and sent him to Labrador. He knew neither English nor Indian dialects.

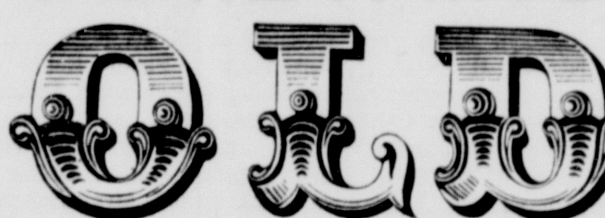

**HAS PROUD RECORD**

Today he is proud most of three things: the infant mortality rate is down from 80 per cent to 5; there isn't an illiterate Indian in the band, and no one lives on relief, as many did before.

"Pure charity is killing," he says. "Nothing is worse for the spirit than to be dependent. These people will be integrated into the white man's civilization in two or three generations. When they come in, I want them to come in as a proud people who stand on their own feet and have nothing to be ashamed of."

SOMETHING

These—without anything borrowed or blue—can give to her Wedding Day the sure promise of happiness.

Something old? A faith in God such as has been the foundation of life for millions of Christians before her. A simple conviction found in the religious instruction she received as a child, nurtured in regular worship at Church, ready to go with her through the years.

Something new? A love for the one she has consented to marry. A tender devotion that will grow richer and deeper as they share the sunshine and shadows of life.

With these two—the "something old" that lives in her soul, and the "something new" that thrills in her heart—she comes to her husband. And if he comes to her bearing the same treasures, their marriage cannot fail!

## Wallace Set To Play Role Of Martyr At University

By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (AP) — Alabama's Gov. George C. Wallace has set the stage to play the martyr. That's clear, but not his reason for trying it.

Nine years ago the Supreme Court ordered public schools desegregated, ruling that "separate educational facilities are unequal."

But the court, because there are so many elementary and secondary schools and they have varying problems allowed time for desegregating all of them.

This was when it said desegregation should proceed "with all deliberate speed." Recently the court indicated it feels the speed is much too slow.

So much for the elementary and secondary schools.

As for state colleges or universities—the court said a week ago "recognition of the need for delay" has not even been extended to them.

But the University of Alabama is a public school and it hasn't been desegregated at all. Not one school of any kind in Alabama has been desegregated.

### COURT ORDERS ADMISSION

This year a federal court, nine years after the Supreme Court's original ruling, ordered Negroes admitted next Monday to the University of Alabama.

Wallace promptly announced he would stand in the university door to block the Negroes from registering. He repeated this as late as last Sunday.

Wednesday a federal district judge, Seymour H. Lynne, issued a stern injunction to Wallace not to interfere with the Negroes' enrollment.

It does not prevent him from going to the campus Monday or demanding in the name of the state that the Negroes be denied enrollment.

In effect, he's free to put on an act.

But the injunction warned him not to block, prevent or interfere with the entrance of the Negro students by "physically interposing his person or that of any other person under his direction or control."

If Wallace defies this injunction and is arrested and convicted of criminal contempt, he could be jailed for 10 years.

Nevertheless, a few hours after

the warning from the judge, Wallace went on the air to say he would take action that "involves my personal freedom, but I intend to carry it out, regardless of what risk I take."

He added: "What happens to George Wallace is not important but what happens to constitutional government is very important."

But how does the preservation of constitutional government jibe with what Wallace says he'll do since the Supreme Court has declared segregation unconstitutional and a federal judge ordered Alabama's university desegregated?

Last weekend he said that resistance to the court order is a "dramatic way to express to the American people the omnipotent march of centralized government."

Then he added this: "If I am arrested I will go peacefully. I haven't said I'd disobey a federal court order for defiance's sake but for testing."

### TESTS BASIC QUESTION

Testing what? He said the basic constitutional question to be decided in the courts is whether Alabama could operate its school system as it has in the past or whether the courts and the federal government would, in effect, operate the system.

Both parts of this question can be answered easily:

1. The courts and the federal government, as Wallace knows, do not operate state's school systems. So this is not a real question.

2. Alabama in the past has operated segregated public schools. The Supreme Court has ruled public school segregation is unconstitutional.

So there is no constitutional question left to be tested.

## COMEDY OPENS ALLENBERRY

The Allenberry Playhouse at Boiling Springs has been chosen to be the first summer theater in the country to produce "Harold," a comedy with a switch on the "Pygmalion" theme from which "My Fair Lady" was taken. "Harold" which closed recently after a successful Broadway engagement opened Monday and will play through next week.

Director Richard North Gage has cast his new juvenile, Peter Ratray, in the title role, which was done in New York by Tony Perkins. Ratray is seen as a shy young man who is befriended by a group of his late brother's pals in order to provide him with the social graces necessary to woo a wealthy hotel heiress. The pals, all bachelors, form a syndicate to coach and outfit him for a charity ball so he can meet the girl of his dreams. Joining Ratray in the farce are William McKereghan as Fatto Kleest, owner of the apartment Reginald Rowland Jr. and David Brubaker. Ann Willis plays a lonely neighborhood girl to whom Harold eventually turns for romance. Veteran Bettie Endrizzi gives an excellent portrayal of the spinster school teacher hired to give the hero some instruction in etiquette and poetry as part of his preparatory course for his excursion into the world of romance. Tango Eddie Frecker, the dance teacher, played by Don Signore; Mr. Gottlieb, the tailor, played by Russell Bailey; and Mr. Wong, the Chinese wine merchant, played by Don Draper, are small parts that are very effectively done. The entire play is well cast and it provides an evening of fun.

Members of the Vigilant Hose Company began to canvass the town this week in an effort to complete the annual financial drive, which has been set at \$4,000.

Mrs. James Bollinger, president, conducted the meeting of the New Frontier Democratic Women's Club held Monday evening in the VFW Auxiliary room. Twenty-six members were present. Plans for the annual family picnic were discussed and it was decided to hold it on August 4 at Cunningham Falls State Park. Mrs. Jane Nolan, program chairman, announced that Mrs. Carrington of very funny entertainment for the whole family . . . ETB.

### DESCRIBES 1ST BASE ON MOON

DENVER (AP) — The first United States expeditionary base on the planet Mars may resemble an adobe village of the prehistoric American Southwest or Mexico — with the crude buildings made largely of "local Martian construction materials"—a space scientist said today.

The quaint scene was envisioned by Percy H. Bliss of the Rand Corp. He said that rocks should be available on the Red Planet and that along with water procurable by condensing the atmosphere, there well might be cement-making materials in the sandy soil, such as limonite, calcium carbonate and sulphur.

Thus, he told a symposium on the exploration of Mars staged by the American Astronautical Society, there would be all the makings for a community of simple construction.

Bliss said the first adventurers to reach the planet would have to make all possible use of indigenous Martian materials to cut down on cargo-hauling from the earth.

Ed Bailey, John Edwards, Jim Hickman and Bill White were the first four National Leaguers to hit grand slam home runs this spring.

LONDON (AP)—A beautiful redhead's simultaneous affairs with the British secretary of state for war and a Soviet naval attaché posed a new security headache today for Prime Minister Harold Macmillan.

Queen Elizabeth II also was being brought into the political row.

The redhead is 22-year-old Christine Keeler who also numbered two West Indian Negroes among her lovers and was termed a call girl in parliamentary debate.

### WAS RUSS AGENT

In a copyrighted interview in the Daily Express today she said she saw Secretary of State for War John Profumo once or twice a week for several months in 1961—when she was 19 and he was 46.

She said Soviet Cmdr. Yevgeny (Eugene) Ivanov, former assistant naval attaché in London, "was also a friend of mine at the time I was going with Jack (Profumo)." Ivanov is now believed here to have been an intelligence agent.

Profumo resigned from Macmillan's government and the House of Commons Wednesday after admitting he had lied to Parliament when he said March 22 that there was nothing improper in his relationship with Miss Keeler.

Laborite leaders say that though there is no suggestion of a security breach, the matter still is extremely grave because Profumo, the husband of former actress Valerie Hobson, could have been subjected to Soviet blackmail.

### NEW CAUSE OF DISMAY

A Buckingham Palace announcement that the queen will see Profumo Tuesday to accept his seals of office — a customary audience for outgoing government members — caused dismay among many members of Parliament.

Laborites felt the queen had been badly advised by the government to grant Profumo an audience.

There was some suspicion that the queen might want to censure Profumo personally for having involved the royal family. On March 22, after his false denial in Commons, he went to a racetrack as Queen Mother Elizabeth's guest. Pictures of them together were in all the papers next day.

BLIND SCOUTS  
WILL BE AIDED  
BY TROOP 84

Twenty members of Explorer Post 84 and of Boy Scout Troop 84 will lend their eyes and helping hands to 20 members of Boy Scout Troop 103 of Royer-Graves School for the Blind, Paoli, during the weekend.

With the local Scouts serving one for one, the blind boys will join in a weekend of camping, hiking and touring the Gettysburg Battlefield. Camp will be set up at Pardee Field by Littlestown Explorers and Scouts this evening and in the morning prior to the arrival of their guests at noon on Saturday.

Preparations for this event in the lives of the local Scouts have been in progress for the past four weeks, when a part of each meeting was set aside for instruction and indoctrination. Each boy who will be the eyes of a member of the guest troop, has received a card with his name, age, religion and special handicap in addition to no sight. Everything has been planned to insure an enjoyable weekend for the guest troop members.

Much credit for this "first" in the Black Walnut District is due to the Scout leaders of Troop 103 for their outstanding work and effort in enabling their blind boys to enjoy the benefits of Scouting. E. K. Sowden Jr. is Scoutmaster for the Paoli Troop and others assisting with the arrangements for the weekend are J. Matthews, C. Hughes and Lee Wetzel. Local adults working with the Scouts and Explorers are Scoutmaster Edgar A. Wolfe, assistants John R. Rudisill and Victor Reynolds; Luther D. Snyder, Charles E. Ritter and James Anthony, Post Advisor Stanley F. Frock and associate advisors Lee Krout and Robert Hahn.

## PLAN SERVICE SUNDAY

A work crew will go to Pardee Field tonight to set up camp, including both Scouts and Explorers, leaving at 5:30 from the Community Center. The remainder of the group chosen to help their less fortunate brothers in Scouting will leave from the Community Center at 8:30 a.m. on Saturday. All participants will take their own bedding, fatigue clothes and full dress uniform.

There will be a chapel service for the Protestant boys of the group on Sunday at 10 a.m. at the battlefield campsite. The following service has been planned: Invocation, Royer-Greaves Troop, Joseph Moore; Royer-Greaves Chorus, "God Whose Name Is Love"; assemblage (hymn), "Fair Lord Jesus"; Scripture reading, Matthew 25: verses 31-46, Stephen Study of Post 84; the 23rd Psalm, Andy Rode; "Remembering," Carl F. Hendrick; prayer, Lord's Prayer, William Ritter of Post 84; Royer-Greaves Scout Chorus, "Jacob's Ladder"; assemblage (hymn), "In the Garden"; benediction, Littlestown troop.

The Catholic boys will be transported to the 7 a.m. Mass on Sunday in St. Aloysius Church, Littlestown. Transportation will be provided on a Paoli chartered bus.

Twenty-two boys from Paoli Troop No. 103 are sponsored by the Paoli Lions and Rotary Clubs. These boys are totally blind and retarded, the only troop of its kind in the U.S.A.

HARRISBURG (AP)—Gov. Scranton promises to fight for a school district reorganization bill as strong as the one his administration submitted.

He told a news conference Thursday he will appeal to Senate Republican leaders next week for a strong bill.

The governor indicated some disappointment that the Senate Education Committee amended his school bill, but said it still "will be a step forward."

### FIGHT HAS BEGUN

The amended bill would make acceptable under the proposed new act reorganization plans drawn up according to 1947 standards.

Asked if he would fight for a change, the governor said:

"I already am putting up a fight. I talked to Sen. Wagner (Paul L. Wagner, Senate Education Committee chairman) and I will talk to the leadership at the regular meeting next week."

The governor did not seem concerned by statements in a nationally syndicated article or his administration that Pennsylvania is a state of semidepression, spends less than the national average for education, has an inadequate highway program and has sub-standard health facilities.

### PLEASED WITH PROGRESS

Asked whether he considered such statements harmful to Pennsylvania's effort to attract industry, the governor said:

"We have statements made about Pennsylvania all the time. There is no point in not facing realistically what our problems are and then doing something about it, which is what this administration is doing. And I think this is highly commendable and highly commended by industry."

The governor said he was pleased with the progress of his legislative program and plans to draft a list of bills he feels must be passed before the legislature adjourns.

### HIRES POLLSTER

Scranton said he has hired pollster E. John Bucci to find out "what the people of Pennsylvania are thinking in regard to our various policies and programs."

Among the things the pollster surveyed, said Scranton, were reaction to the tax increase and a possible ban on boxing.

"In relationship to other tax raises that have occurred in other areas, there is not so much antagonism toward this one," Scranton said.

### OTHER TOP TOPICS

Other highlights:

Boxing—Scranton said Bucci found Pennsylvanians "overwhelmingly in favor of the continuation of boxing." The governor discussed the boxing death situation with the state Athletic Commission and an advisory medical board prior to the news conference and asked them to continue studying whether to ban the sport or ways to improve protection for boxers.

Civil rights demonstrations—The governor said he asked the chairman of the state Human Relations Commission to investigate the Negro demonstrations at a Philadelphia school project.

Philadelphia Republican chairmanship—The Philadelphia Republican City Committee will select its chairman at a meeting next week, Scranton said, without stating whether he preferred to see Wilbur Hamilton continue in the job. Hamilton has been under fire for insurance patronage received from Democratic agencies.

Defense contracts—Pennsylvania's share of defense contracts has remained about the same percentage-wise, but the dollar volume has gone up, Scranton said.

Legalizing thoroughbred (flat) horse racing—"I think that we better test this one (harness racing) out first," Scranton said. He added the administration wanted to assess the possible interference of racketeers "and other evil influences" with the harness tracks where gambling has been legalized for the first time in Pennsylvania history. The governor's remarks indicated little prospect for passage of a bipartisan bill to extend gambling to flat racing.

## EMOTIONS TO PLAY ROLE IN GOP CAMPAIGN

By JACK BELL

WASHINGTON (AP)—Republicans appear to be heading into a contest in which emotional appeal may be matched against can-win claims in the selection of their 1964 presidential nominee.

As matters stand 13 months before the party's convention, backers of Sen. Barry M. Goldwater, R-Ariz., like to think of their man as the emotional favorite for a nomination entitling its bearer to buck the tide that usually flows for a president seeking a second term.

Supporters of New York Gov. Nelson A. Rockefeller, on the other hand, believe he represents a philosophy persuasive in modern times in convincing GOP convention delegates that they should nominate the man they think has the best chance to win.

### COMPARED TO 1940

In the wings, watching developments, is Michigan Gov. George Romney.

If Goldwater is nominated at the 1964 convention the result will parallel in some respects — and differ radically in others — from the triumph of emotion that helped make Wendell L. Willkie the party's standard bearer in 1940.

Willkie defeated the party pros with a combination of a meticulously timed explosion of convention enthusiasm and a carefully arranged deluge of telegrams and telephone calls to delegates from community leaders at home.

### NEED NEW YORK

In Goldwater's case, this will have to be voluntary and spontaneous. Some of the party's largest contributors, including his Wall Street friends, financed the Willkie boom and demonstration.

There is no central financial clearing house for the Goldwater drive. Because he says he is only running for re-election to the senate from Arizona, he won't even accept checks for a presidential campaign chest.

Rockefeller is credited with voting appeal in the large states which cast heavy electoral vote totals. If they are to beat Kennedy, the Republicans desperately need New York. Rockefeller has carried it twice in governor races.

## Track Arsonist Sent To Prison

BUFFALO, N. Y. (AP)—George F. Briggs, accused of setting two racetrack fires and another at a restaurant, today faced a prison term for one of them—a fire at Buffalo Raceway that killed 17 horses.

Briggs, a former stablehand, was sentenced Thursday by Judge Burke I. Burke of Erie County Court to serve 3 to 8 years in Attica State Prison. He had pleaded guilty to a charge of third-degree arson in connection with the Buffalo Raceway fire, that caused \$100,000 damage Dec. 26.

Briggs, 23, also is accused of starting a fire at Suffolk Downs, near Boston, last November, causing \$230,000 damage. He has admitted setting a fire that destroyed a Massachusetts restaurant, in 1958, police said. The loss there was \$385,000.

## Cites Risk Of Chaos From Hand Grenade At Joint Congress Session

By WILLIAM F. ARBOGAST

WASHINGTON (AP)—A House document noted Thursday that at joint sessions of Congress "one lunatic with a hand grenade could plunge our nation into chaos."

That observation was made by Rep. Charles S. Joelson, D-N.J., a member of the Appropriations Committee, and was made public by the committee in its printed report accompanying the annual legislative money bill.

"I get very nervous" at such sessions, Joelson commented.

### PRESIDENTIAL CHAIN THERE

He referred to the customary presence at joint sessions of "the entire chain of succession" to the presidency.

At each annual joint session when the President delivers his State of the Union message, the House chamber audience includes the vice president, the speaker of the House, the president pro tempore of the Senate and most cabinet officers. They constitute the entire line of succession.

The vice president and the speaker sit directly behind the President, while the cabinet members sit nearby in front of him. They are in "pretty close proximity," commented Rep. Walt Horan, R-Wash.

"You may have noticed that sel-

dom, if ever, do all of the cabinet members show up for joint sessions. At least one of them usually stays downtown. Perhaps they have thought about this possibility," said a House official who declined use of his name.

Joelson's fears were prompted, he said, by the fact that on March 1, 1964, a band of Puerto Rican fanatics seated in the House gallery fired a volley of bullets into the House chamber and wounded five members.

Since then, no one is allowed in the galleries without an admission card, usually furnished by members. Groups of tourists who pay a quarter each for an officially guided tour don't need admission cards, which are easy to obtain. All visitors are required to leave their cameras outside the gallery, but they are not searched.

# "Serious Unrest" Reported On Mansfield's Campus By Special Investigating Group

By FRED WALTERS

HARRISBURG (AP)—A special investigating committee found "signs of a serious degree of unrest on the campus" at Mansfield State College, its report today disclosed.

The committee visited the state-owned institution in April after Gov. Scranton and legislators from the northern tier counties received a flood of letters complaining of an "undemocratic and repressive administration" under President Lewis E. Rathgeber Jr.

One of the allegations was that Rathgeber's mother had struck a college official across the face with a rolled newspaper.

MADE PUBLIC APOLOGY

Its investigation substantiated the allegation, the committee reported.

Dr. George Hoffman, deputy state superintendent for higher

education, George Mohlenhoff, acting deputy state superintendent, and Bernard Mendelsohn, assistant attorney general for the Department of Public Instruction, made the investigation.

Their report was mailed Thursday to the secretary of the college's board of trustees.

It was made public today after the legislators expressed concern about the failure of the department to do so.

URGE CORRECTIVE ACTION

The committee concluded its 15-page report by urging that "corrective action should be taken quickly so that the college may get back to work in an atmosphere conducive to study."

The members did not recommend any action. Action must come from the board of trustees.

The committee said it found a general atmosphere "of fear and tension not conducive to study."

The situation was catalyzed by the resignation of Miss Florence Ludy as acting assistant dean of women on March 15.

STRUCK MISS LUDY

She told the committee in a letter that "the frustrations and difficulties of her job" prompted her resignation.

The committee reported it found a lack of communication among the college officials, including Rathgeber, the dean of students and the dean of women and between administration and student body and between Rathgeber and Mansfield borough residents.

After Miss Ludy's resignation, Mrs. Lewis Rathgeber Sr. visited her in her room while she was packing and after an argument struck the woman, the committee

## Liquor Tax Bill Effective Today

HARRISBURG (AP)—Gov. Scranton rounded out the revenue program he sought to balance his proposed \$1.121 billion budget when he signed into law Thursday night a \$12.5 million liquor tax boost.

The law became effective immediately, but Pennsylvanians did not begin to pay the newly increased price for liquors and wines until the more than 600 state stores opened across the state this morning.

The new law boosted the former 10 per cent liquor and wine tax to 15 per cent.

said.

500 DEMONSTRATED

Some 200 girl students staged a demonstration and booed Thomas E. Godward, dean of students, as Miss Ludy left.

Rathgeber, then in Washington, D.C., called the students into a meeting behind locked doors the following Monday and lectured them in a fashion even he admitted was "harsh," the committee

said.

Rathgeber, according to witnesses, told the girls they were "stupid, immature, irresponsible and ignorant," warned them not to relate the incident to outsiders and threatened to refuse admission in the fall to any student caught making outside contacts.

PRESIDENTIAL ABSENCES

Another point raised by the committee were absences by Rathgeber which it said were excessive in relation to other college presidents.

Expense account vouchers filed here showed he was away 179 days in the 1959-60 school year, 147 days the following year, 152 days in the '61-'62 year and 94 days between June 1, 1962, and last March 31.

It added that this did not show the whole picture because Rathgeber also was absent at times when he did not submit requests for allowances.

PROMINENT DEMOCRAT

Rathgeber was appointed to the job August 15, 1957. His salary is \$16,100 annually.

He is a prominent Democrat and there were reports of friction with people in predominantly Republican Mansfield but the committee said it did not believe this was a factor in college-community relations.

Rep. Evan S. Williams, R-Bradford, said he was "happy to indicate that the investigation was not the result of a political vendetta and the report indicates that the allegations of the students were not half-truths or distortions."

## LONG LIST OF BILLS SIGNED BY GOVERNOR

HARRISBURG (AP)—Gov. Scranton has signed into law a bill to borrow \$3 million from the state employees retirement fund for general fund purposes.

The money will be paid back in the next fiscal period.

Other measures signed into law by Scranton Thursday would:

—Fix the maximum height of boat carriers when loaded at 13½ feet.

—Allow the payment of salaries to second class township secretaries and treasurers instead of just fees.

—Lower from two to one the minimum number of physicians required for a third class city board of health.

FACSIMILE SIGNATURES

—Authorize the use of facsimile signatures in the handling of urban redevelopment affairs.

—Make an editorial correction in the second class county code.

—Permit state employees to use pension rights as collateral for loans up to \$600.

—Validate ordinances in second class townships and third class cities at certain meetings.

# SLACK SEASON HAS ARRIVED FOR TV FARE

By CYNTHIA LOWRY  
AP Television-Radio Writer

NEW YORK (AP)—Television now has entered its slack season. The vast majority of programs have moved into reruns. Performers are taking off for Europe, mountains, beaches — or more likely — summer stock, the fair circuit or personal appearances.

But the lack of excitement on the small screens of the nation's television sets does not reflect the turbulent activity behind the scenes.

For instance, the busy Goodson-Todman firm has developed still another television word game, "The Missing Link," which it hopes to slip into some network's daytime schedule next season, preferably NBC's.

STUDY NEW SHOWS

Meanwhile, one of its six game shows, "Play Your Hunch," is up for renewal at NBC but its future is up in the air. There's a possibility that if "Hunch" disappears, host Robert Q. Lewis (or even Merv Griffin) might move into the host's spot of the new show which involves a celebrity panel guessing missing words in stories.

At ABC, executives are reported to be taking another hard look at a series, "Channing," scheduled for fall debut and thinking about a replacement. The show has not yet found sponsors. They

have also changed the title of the Gene Barry cops-and-robbers show, originally "Amos Burke," to "Burke's Law," which makes it sound like another court-room series—which it isn't.

CBS has some irons in the fire, too. Discussions are in progress which may lead to the departure of its veteran correspondent David Schoenbrun, with the network for the past 16 years. He was recently returned to Europe as a roving correspondent after a short period as its top Washington man. There are rumors Schoenbrun balked at leaving Washington.

### PRECEDENT SHATTERED

In addition, CBS recently made a precedent-shattering commitment. It has scheduled repeat broadcasts of two documentaries, "Hollywood: The Fabulous Era" and "Hollywood: The Great Stars," in August and September. Reruns certainly aren't unusual, but both of these excellent hour shows were first shown on a rival network, ABC, and such trans-channel repeats are very rare indeed.

## Stamp Window Is Due Replacement

RICHMOND, Va. (AP) — The bronze-barred post office stamp window is going the way of the four-cent stamp.

There are now just four stamp windows left in Richmond, and all are in the main post office. A postal spokesman estimates the post office can save \$10,000 a year by changing to multipurpose counters.

But long-time postal workers still eye the old stamp windows nostalgically.
